

Safety Poster Assignment

Using your First Aid topic create a safety poster to encourage accident prevention or awareness.

You may choose one aspect of prevention (for example, helmet use for preventing head injury) or awareness of the risk in general (for example, why choking could be a risk)

Your poster should be effective and clear at raising awareness and/or reducing the risk if injury. Someone should be able to look at your poster and immediately understand the first aid topic and the risk or prevention involved. How you do this is up to you. It can be a list of warnings, a picture of the injury and a picture of how to prevent it, or any other way you can think to get your point across. Be creative and have fun!

Design a Safety Poster on 8 ½” x 11” white paper, that can be displayed around the school. Your safety poster must have originality and zero-in on one first aid topic.

Please write your name on the **back** of your poster.

Assessment of Learning Rubric:

	5	4	3	2	1
Knowledge Evidence of safety knowledge	The poster is clear and the topic is well known. The reader is able to understand the prevention method or awareness that is being addressed.		The poster topic is known but might not be clear. The reader might be able to understand the prevention method or awareness that is being addressed.		The poster topic is not clear. The reader is not able to understand the prevention or awareness that is being addressed.
Thinking Student carefully planned the poster. Poster is creative and content driven.	The poster is organized in a way that is appealing and easy to read. Creativity is used to execute the final design. The First Aid Topic remains vital to the layout.		The poster is appealing and easy to read. Might be an original idea or concept, but may not be creative. The First Aid Topic may not be the most important part of the poster.		The poster is hard to understand and not original or creative. The First Aid Topic has taken a back seat to other designs.
Application Overall quality of poster is effective. Poster is executed with care and precision.	The poster is exceptionally attractive in terms of design, layout and neatness.		The poster is attractive in terms of design, layout and neatness.		The poster is distractingly messy or very poorly designed. It is not attractive.
Communication Overall written and visual elements in poster are effective. Poster is free of grammar/spelling errors.	There are no grammatical/mechanical mistakes on the poster		There are 1-2 grammatical/mechanical mistakes on the poster		There are 3- 4 grammatical/mechanical mistakes on the poster
